

SUSANA A. MENDOZA
CITY CLERK'S OFFICE-CITY OF CHICAGO

STATE OF ILLINOIS)
)SS.
COUNTY OF COOK)

I, SUSANA A. MENDOZA, City Clerk of the City of Chicago, in the County of Cook and State of Illinois, DO HEREBY CERTIFY that the annexed and foregoing is a true and correct copy of that substitute resolution now on file in my office expressing opposition to the proposed construction of nuclear waste repositories in the Great Lakes basin, Canada, the United States of America, or in any First Nation property., which substitute resolution was adopted by the City of Chicago at its regular meeting held on the twenty-first (21st) day of January, 2015.

I DO FURTHER CERTIFY that the original, of which the foregoing is a true and correct copy, is entrusted to my care for safekeeping, and that I am the lawful keeper of the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal of the said City of Chicago aforesaid, at the said City, in the County and State aforesaid, this sixth (6th) day of February, 2015.

[T. P.]

SUSANA A. MENDOZA, City Clerk

SUBSTITUTE RESOLUTION

WHEREAS, Ontario Power Generation (OPG), a corporation wholly owned by the Province of Ontario, is proposing to construct a deep geologic repository (DGR) and bury and abandon in the DGR all of Ontario's low and intermediate level radioactive nuclear waste, some of which will remain highly radioactive and toxic for over 100,000 years. The proposed site is located at the Bruce Nuclear Generating Station, less than one mile from the eastern shore of Lake Huron; and

WHEREAS, OPG did not consider or evaluate any other actual sites for the location of the proposed DGR; and

WHEREAS, The creation of a permanent nuclear waste storage facility so close to one of the Great Lakes is a matter of vital concern to the region's states and provinces. Millions of United States and Canadian citizens rely on the lakes as a source of drinking water, tourism, recreation, and as a key industrial asset; and

WHEREAS, A leak of radioactive waste would almost certainly have a cataclysmic effect on the delicate ecological balance of the world's largest group of interconnected freshwater bodies of water; and

WHEREAS, The Mayor and City Council of the City of Chicago have a deep obligation to protect the public health, safety, and welfare of Chicagoans by working diligently to preserve our precious natural resources; and

WHEREAS, Under the *2012 Protocol Amending the Agreement Between Canada and the United States of America on Great Lakes Water Quality*, the governments of Canada and the United States acknowledge the importance of anticipating, preventing and responding to threats to the waters of the Great Lakes and share a responsibility and an obligation to protect the Great Lakes from contamination from various sources of pollution, including the leakage of nuclear waste from an underground nuclear waste repository; and

WHEREAS, In the mid 1980s, the U.S. Department of Energy was considering potential sites for a nuclear waste repository, including locations in the Great Lakes Basin. As a result of significant Canadian opposition, Joe Clark, then Secretary of State for External Affairs, intervened, and the U.S. government honored Canada's request to rule out any sites within 40 kilometers of the Canadian border; and

WHEREAS, In September 2014, resolutions HR 716 and SR 565 were introduced in the U.S. House of Representatives and U.S. Senate expressing the sense that: (1) the Canadian Government should not allow a permanent nuclear waste repository to be built within the Great Lakes Basin; (2) the President and the Secretary of State should take appropriate action to work with the Canadian Government to prevent a permanent nuclear waste repository from being built within the Great Lakes Basin; and (3) the President and the Secretary of State should work together with their Canadian Government counterparts on a safe and responsible solution for the long-term storage of nuclear waste; now, therefore,

BE IT RESOLVED, That, to protect the Great Lakes and its tributaries, we, the Mayor and Members of the Chicago City Council, urge that neither this proposed nuclear waste repository at the Bruce Nuclear Generating Station site nor any other underground nuclear waste repository be constructed in the Great Lakes Basin, in Canada, in the United States, or in any First Nation property.

BE IT FURTHER RESOLVED, That we urge the Government of Canada and the Government of Ontario to reject, and seek alternatives to, Ontario Power Generation's proposal to bury and abandon radioactive nuclear waste in the Great Lakes Basin.

BE IT FURTHER RESOLVED, That copies of this resolution be transmitted to the Premier of Ontario, the Prime Minister of Canada, Canada's Federal Minister of the Environment, Canada's Minister of Foreign Affairs, Canada's Minister of Natural Resources, the President of the United States, the United States Secretary of State, the President of the United States Senate, the Speaker of the United States House of Representatives, the members of the Illinois congressional delegation, the governors or premiers and the legislative majority leaders, in Illinois, Indiana, Minnesota, New York, Ohio, Pennsylvania, Wisconsin, Ontario, and Quebec, the Board of Directors of the Great Lakes Commission, all Members of Ontario's Provincial Parliament and all Members of Canada's Parliament, and to the Joint Review Panel Deep Geological Repository for Low and Intermediate Level Radioactive Waste Case Reference Number 17520, c/o Panel Co-Manager, Ms. Debra Myles.
