Dear Minister:

**Re: Joint Review Panel Deep Geological Repository for Low and Intermediate Level Radioactive Waste
Case Reference Number 17520**

At a recent meeting, Niagara Falls City Council passed the following motion:

That Niagara Falls City Council is opposed to any nuclear waste repository in the Great Lakes Basin.

The motion of Council came about after much discussion. Although the issue is not one that Council regularly deals with, the long-term protection of the Great Lakes was the priority concern of the members.

Your consideration of Council's motion is respectfully requested.

Sincerely,
